# *Dedication*

To Mr. Tommie Staton, a teacher and friend, for time unselfishly dedicated to the building of school spirit and moulding the lives of others in his unassuming and understanding way, for integrity, for intelligency, for nobility of character, for accomplishments of mind and spirit, we, the Senior Class of '62, do dedicate this volume Echoes.

Senior Class of '62

L. P. Beck, Principal

## *Principal's Message*

This last edition of the Echoes commemorates the closing of Stanfield High School as we know it today. However, it will still live as it becomes a part of a larger consolidated high school. For thirty-two years it has helped students who have earnestly sought its help in preparing to become useful citizens in the communities where they have lived. This is true because

education is limited only by the ability of the students and by the extent to which they are willing to apply themselves to learning.

Education, the torch that enlightens the world and fires the imagination of man, gives wings to dreams and might to brawn and brain. Man through education holds dominion over the earth, the air, and the sea. Education is the parent of progress, the creator of culture, and molder of destiny. It banishes ignorance, discourages vice, and disarms anarchy. Thus education has become freedom's citadel, the arm of democracy, the hope of youth, and the joy of age. Fortunate is the student who welcomes it.

The school is education's workshop. It is here that ambitions are stirred, ideas are stimulated, and keys are forged that open the door of opportunity. It is the source of inspiration, as well as the aid to aspiration. Education has been called the irresistible power and it is the school that provides the tools for its use.

As you leave this school, I commend you for the beginning that you have made and urge you to continue to acquire the power that education can bring. Think of your life as just begun with every rising of the sun. Bury the past on each day and press on to greater things that are before. Believe that the best will come to you, because he who conquers doubt and fear has already conquered failure. Thus may you become successful citizens of tomorrow.

Mrs. Juanima McIntyre

#### A TEACHER'S PRAYER

I want to teach my students how. . . .To live this life on earth. . . .To face its struggle and its strife. . . .And to improve their worth. . . .Not just the lessons in a book. . . .Or how the rivers flow. . . .But how to choose the proper path. . . .Wherever they may go. . . .To understand eternal truth. . . .And know the right from wrong. . . .And gather all the beauty of . . . .A flower and a song. . . .For if I help the world to grow. . . .In wisdom and grace. . . .Then I shall feel that I have won. . . .And I have filled my place. . . .And so I ask Your Guidance, God. . . .That I may do my part. . . .For character and confidence. . . .And happiness of heart.
